

CASH-BACK MOBILE RECYCLING COMPARISON SITE LAUNCHED

Cell Zone is the new cash-back comparison website for recycling mobile phones

The website collects up to date cash-back information from 10 leading online mobile phone recyclers, compares the offers and then instantly displays a list of recyclers and ranks the offers from best to worst.

Clicking on an offer links to the relevant page of the recycler's website, where the transaction can be quickly completed and the best price achieved for the mobile phone.

The site is being operated by Phil Yarrow Consulting Ltd, trading as Cell Zone.

Phil Yarrow explained "As Internet marketing professionals we have worked with key industry players to develop an attractive easy-to use website that offers more choice than any other mobile phone recycling cash-back comparison site."

Phil continued "We believe that Cell Zone's ease of use and market-leading choice of recyclers gives our visitors the best possible deal on their old mobile phone."

The website is live now and available here at www.cellzone.co.uk
